The Bronze Age saw the beginning of empires, as well as their mysterious and catastrophic end. In a world not unlike our own, the nomadic Whisperers of the Gods have been given a grave vision of the gods destroying the world in a great flood, and they send three messengers to the great empires in hopes of appeasing the gods. Finding themselves in strange new lands with even stranger customs, the Whisperers soon discover the hardest thing is not only convincing the kings and queens to listen, but reaching their destinations without falling prey to the dangers and resisting the temptations of these new lands. In this first novel, readers experience a lost age where the gods live in the wind and waves, and beasts lurk in the dark.
